Tips to Help Save \$\$

- We bill in 15 minute increments with a 1 hour minimum
- Please have walkways and driveways clear for easy and fast loading.
- Please have all drawers empty of items. Leaving drawers full can lead to damage to pieces or potentially harm the movers with the added weight.
- Please perform any disassembly you can before move day.
- Please have all fragile items (lamps, lampshades, pictures, glass items, mirrors, etc). protected and packed into a box
- Stage any boxes or items as close to the door we will load from as possible.
- Block off parking for our trucks.
- Please update the office with your box count as we get close to your move day.
- Please inform us if you need any help packing up boxes or your fragile items.
- Please inform us if you need to rent pads for short-term storage or would like to purchase pads for long-term.
- Please unhook any water lines prior to move day. If you need assistance we can do this for a small fee.
- Please inform us if the driveway is less than 6 months old.
